SUMMARY

Result-oriented BTech Information Technology graduate with a strong academic foundation (**9.15 CGPA**) and hands-on experience in **full-stack web development**. Proven track record of building responsive applications using **ReactJS, PHP, and MySQL**. Completed a technical training at **Persistent Systems**, gaining proficiency in **Core Java, DSA, Linux and DBMS**. Demonstrated ability to improve user engagement and data efficiency through projects like a AlphaAgro and an Invoice Management System.

EDUCATION

B. Tech (IT) – 76.98% Walchand Institute of Technology, Solapur — Sept 2020 – Jun 2024
HSC – 64.15% | DSM College, Parbhani — Jun 2019 – Mar 2020
SSC – 85.80% | Netaji Subhash Vidyalaya, Manwath — Jun 2017 – Mar 2018

EXPERIENCE

Persistent Systems – Martian Summer Internship Program — Jun 2023 – Aug 2023

- A comprehensive training initiative in the **Martian Summer Internship Program**, covering essential skill sets like **Linux, DBMS, Core Java, and DSA**, resulting in an **85%** increase in participant knowledge acquisition.
- Demonstrated excellence in the training program, showcasing a robust understanding of **Linux, DBMS, Core Java, and DSA,** affirming dedication to continual learning and professional development with a **78%** performance improvement.
- Engaged in enhancing technical skills in a structured and supportive learning environment at **Persistent Systems**, preparing for future challenges in the ever-evolving field of technology.

PROJECTS

AlphaAgro –

- Constructed a web application using **PHP** and **MySQL** for trading farming machinery, generating an **80%** increase in equipment accessibility for rural users.
- Architected a relational database via **phpMyAdmin** to handle profiles and rental schedules, refining data management performance by **86%**.
- Designed a responsive interface with **HTML**, **CSS**, and **JavaScript**, ensuring cross-device compatibility and yielding a **95%** improvement in navigation speed.

Invoice Management System –

- Developed a comprehensive Invoice Management System using **PHP, HTML, CSS, JavaScript and SQL,** showcasing proficiency in full-stack development.
- Implemented a secure **SQL** database resulting in a **93%** improvement in data retrieval efficiency within the Invoice Management System.
- Presented precision in front-end technologies, achieving an intuitive and user-friendly system for seamless navigation, contributing to a user satisfaction increase of **98%**.

Portfolio Website –

- Applied responsive web design principles to implement a portfolio website, ensuring optimal display on diverse screen sizes and contributing to a **95%** increase in user engagement.
- Displayed expertise in **HTML and CSS** to craft a well-structured and visually appealing layout for the portfolio website, fostering a **91%** improvement in user engagement.
- Implemented a specialised section within the portfolio website, leading to a **90%** increase in employer interest through a comprehensive overview of technical skills and proficiency in relevant tools.

SKILLS

Programming Languages: Python, **Java**, SQL, PHP
Web Development: HTML, CSS, JavaScript, ReactJS
Concepts & Database: **MySQL**, DBMS, JDBC, **OOPS**, DOM, JSON, Data Analysis, Software Lifecycle, Debugging
Tools & Platforms: **GitHub** (Version Control), Eclipse IDE, VS Code, Linux
Soft Skills: Verbal and Written Communication, **Problem-Solving**, Team Collaboration.

CERTIFICATIONS

- Java Programming Fundamentals by Infosys springboard.
- Data Analytics and Visualization Virtual Experience by Accenture on Forage.
